PROJECTS

Currency Converter Web App

It is a React web app that calculates exchange rates of currencies of different countries with the help of third party api.

Personal Portfolio

The portfolio is made using HTML, vanilla CSS and vanilla JavaScript.

WORK EXPERIENCE

The Sparks Foundation (October 2020 - November 2020)

I have worked here as a data science and business analytics intern. Here I implemented various machine learning algorithms to predict the desired result and to find hidden patterns among data.
